Material & Design

Studiomatch è il laboratorio creativo Due-G dedicato alla ricerca di combinazioni estetiche e materiche. La ceramica dialoga con elementi di design dando vita a tavole e moodboard che raccolgono colori, superfici, texture e suggestioni, trasformandole in visioni capaci di evocare stili e atmosfere precise. Studiomatch offre ispirazioni, direzioni stilistiche e combinazioni già ragionate, facilitando la definizione del concept e rendendo più intuitiva la costruzione di un progetto coerente e contemporaneo. Studiomatch è un metodo, una guida e uno spazio di sperimentazione: design senza limiti.

Studiomatch is Due-G creative laboratory dedicated to researching aesthetic and material combinations. Ceramics interact with design elements, giving rise to tables and mood boards that bring together colours, surfaces, textures and suggestions, transforming them into visions capable of evoking specific styles and atmospheres. StudioMatch offers inspiration, stylistic directions and carefully considered combinations, facilitating the definition of the concept and making the construction of a coherent and contemporary project more intuitive. StudioMatch is a method, a guide and a space for experimentation: design without limits.
